

[2016 Regional Training Workshop for South and Southeast Asia](#)

A Regional Workshop for South and Southeast Asia was organized on 14 & 15 April 2016. It was attended by 16 representatives of governments from the region. Many of the participants had recently been assigned to responsibilities related to climate change in their respective government departments. The workshop familiarized them with the history and politics of climate change, and key elements of the recently negotiated Paris Agreement. It also included training in practical negotiating skills.
